POST-MORTEMS ON NIE's

IAC agreement exists on procedure whereby ONE with the agencies will re-examine certain NIE's to determine intelligence deficiencies and gaps. Their conclusions are turned over to OIC which has the responsibility of initiating appropriate action to do something about these deficiencies.

1. A report to the IAC on SE-27 was submitted on 15 October. OIC has been following up on the performance in pursuance of the decisions registered in that section of the 15 October report prepared by ONE. A new status report for the IAC covering both the OMR-EIC and the OIC elements may be appropriate in a month or so.
2. On 15 and 16 December ONE held post-mortems on NIE-35/2 and NIE-47, NIE-55/1, and NIE-58. OIC will prepare for the DCI's signature a draft letter to the IAC heads upon receipt from ONE or reference from DD/I of these post-mortems.
